Prologue

There is not much time left. I have to finish the manuscript of this pamphlet-like book in a few days, whatever the circumstances, and send it for publication, otherwise the time is up. I believe that the government's Ministry of Health, Labor and Welfare of Japan is rushing to strengthen regulations on the Internet, fearing that the top-secret plan that this book is trying to expose will be discovered. I observe that they are anxious. Therefore, I will publish it electronically as an emergency.

Humanity is on the verge of an unprecedented "crisis of extinction." However, only a handful of people are aware of the arrival of this crisis. Since 2020, humanity has been at the mercy of the new coronavirus. And before we knew it, people's health was being damaged by the corona vaccine. Nearly 500,000 Japanese people have been "vaccine fatalities."

However, the biohazard caused by the new "bird flu H5N1 virus" that is

coming soon is orders of magnitude more malignant. The new coronavirus was just a very mild prelude. The majority of humanity may die from a new pandemic. This may sound like a plot from a "doomsday" movie, but it's a serious story. The terrorists were planning to settle things with the H5N1 bird flu in the end. And we didn't realize it until recently.

Of course, the government leaders and the Ministry of Health, Labor and Welfare officials who are carrying out this terrorist attack are doing so knowingly. They are criminals who are carrying out the terrorist attack.

Dutch Scientist Say at Least 35 Million Deaths Have Been Caused by COVID Jobs

People engaged in this bioterrorism are stationed in countries all over the world, mainly in the G7, and are spreading the bird flu and using that as an excuse to prepare to vaccinate everyone with the bird flu vaccine. Some people know about the terrorist plan but choose to turn a blind eye. There are people who call themselves "anti-vaccine" but never

mention the bird flu issue. We will talk about these "fake anti-vaccine" people later.

First, let me give the conclusion. In the second half of 2024, there is a high possibility that an artificial virus made from a highly toxic H5N1 avian influenza virus will infect humans around the world, causing many deaths.

Human-to-human infection is also likely to occur. This is the result of an artificial terrorist act. The operation has already begun. It is no longer possible to completely prevent it.

The H5N1 virus is already highly toxic, but its genes have been modified to infect humans. It is airborne. It has an even higher mortality rate. Migratory birds carry the virus around the world and infect cows and cats. If raw milk from dairy cows infected with H5N1 avian influenza is consumed without heating, it will infect humans. Owners who keep infected cats as pets will become ill. It is a highly toxic virus with a mortality rate of over 40%. Moreover, a Japanese scholar and others are conducting research to increase its toxicity. The results of that research may be used to eliminate billions of human beings.

This malicious artificial virus will take the world by storm. The WHO, CDC, and FDA, under the control of Bill Gates, will adopt the hastily developed mRNA vaccine for bird flu. However, they will disguise it as being hastily developed, and in reality, it was probably already made in a US military biolab in Ukraine, waiting for the bird flu terror to begin. Will this vaccine protect people from bird flu infection? Unfortunately, the opposite will happen.

This vaccination will cause more deaths. Since the start of vaccinations for the COVID-19 vaccine, almost 500,000 people have died in Japan alone. Bird flu

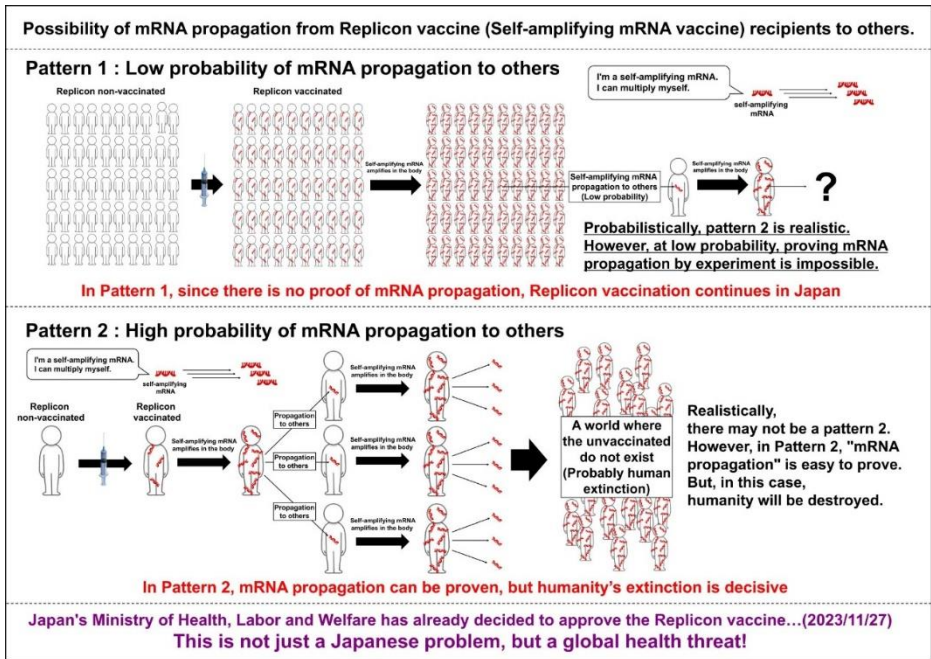

vaccinations will cause even more casualties. Corpses will pile up.

And only those who have been vaccinated will become infected with bird flu and die. This is the same as the new coronavirus vaccine. Those who have been vaccinated will become infected. Even with the Spanish flu of 1920, only those who had been vaccinated died. Even after 100 years, the Rockefellers are trying to use the same method of killing.

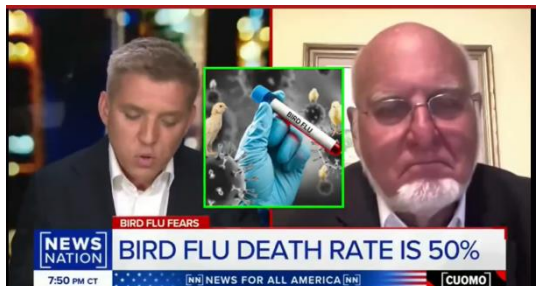

80% of the Japanese population has been vaccinated with the coronavirus vaccine. These people's immunity has been weakened by the vaccine. They are in a state called "immune tolerance." When the H5N1 virus enters their body, and they are vaccinated with the bird flu vaccine, they will develop bird flu. The mortality rate is not only 40%, but may approach 100% due to immune deterioration.

In order to kill the majority of humanity with the bird flu virus, they first had people vaccinated with the coronavirus vaccine. When people who have been completely fooled by the Ministry of Health, Labor and Welfare and the media have exhausted their immunity with the vaccine, the bird flu will attack. That was the schedule from the beginning.

The current bird flu vaccine is thought to be of the replicon type. In other words, after vaccination, it self-multiplies in the body. The vaccine components mass-produced in the body are excreted from the body along with bodily fluids and exhaled air, infecting others. The infected person is in the same state as if they had been vaccinated, and becomes a "vaccine mass production factory." Thus, people infected with bird flu, people infected after vaccination, and people infected through transmission from others (shedding) die one after another.

Due to the weak yen, the number of inbound tourists is increasing. Compared to their

home countries where prices are high, everything is cheap and the quality of goods is good in Japan. Hidden tourist spots are introduced on the Internet, and foreigners flock to Japan. And since September, there are millions of people in Japan who have received the replicon vaccine. They transmit the replicon vaccine to those around them who have not been vaccinated. Foreign tourists who have received the replicon vaccine in Japan bring an artificial virus called replicon-cin back to their home countries. Replicon vaccines are wreaking havoc all over the world. They are only called vaccines in name. Replicons are genuine artificial virus weapons. Thus, the H5N1 bird flu quickly spreads throughout the world.

So how many people will die? Ultimately, it may become a catastrophe close to a 90% reduction in the population, as planned by Bill Gates and his gang. Will it be reduced to the "500 million" that Ron Hubbard, the founder of the American cult religion Scientology, planned? By the way, Bill Gates is a follower of Scientology.

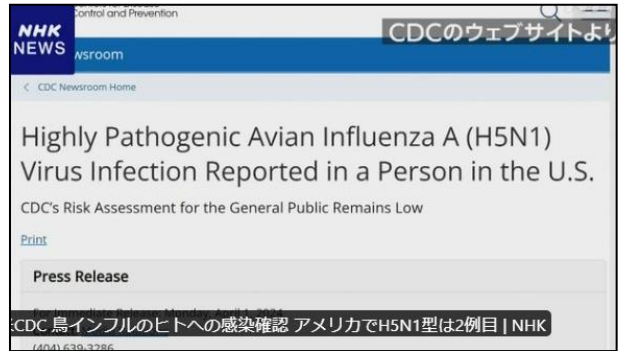

So what should we do? I wrote this book to minimize the damage. I will expose the truth in the hope that terrorists will hesitate to further carry out the biowar. And in the worst case scenario, this book clearly shows concrete measures on how to survive. Those who read this book and understand the true structure of the world will survive. Please survive. This includes those who have already been vaccinated.

(1) Human infection with avian influenza H5N1

As I write this, it is the end of May 2024. Starting in the fall and winter of 2024, avian influenza H5N1 will rage around the world, and there will be infected people in

Japan as well. H5N1 is a highly virulent influenza virus with a very high mortality rate. There are various theories, but many people seem to think that the mortality rate is over 40% or 50%. It is an extremely high mortality rate. It was thought that the virus could not be transmitted to humans, but in March 2024, the US CDC reported that there were two cases of human infection from cows. In the United States, people working in dairy farming were infected with avian influenza from dairy cows.

Regarding the clinical symptoms of H5N1, the Ministry of Health, Labor and Welfare explains that "Initial symptoms are often influenza-like, with high fever and acute respiratory symptoms. Lower respiratory tract symptoms appear early, and respiratory distress, tachypnea, and abnormal breathing sounds are often observed, with clinically obvious pneumonia often seen." Respiratory distress and pneumonia. The incubation period is 2 to 8 days. Death can occur an average of 9 to 10 days after onset. Most deaths are due to progressive respiratory failure. It is a disease that causes painful deaths. Regarding treatment, it only says that "Treatment with Tamiflu, etc. should be considered." In other words, there is no medicine

that can be applied.

The H5N1 virus was transmitted to dairy cows by migratory birds carrying the virus. H5N1 has been confirmed in 34 dairy herds in nine states in the United States since late March. However, the fact that the source of this outbreak is wild migratory birds is puzzling.

According to the Russian Ministry of Defense, the Biden administration carried out a project called the FLU FLYWAY project in Ukraine, infecting migratory birds with avian flu and releasing them into the wild. Does this mean that the experiment was a success? It seems that ducks have been attracting attention as a means of spreading the pathogen. You can't trust what Russia says? It's about 100 times more credible than what the WHO or Biden say. By the way, Biden is a puppet politician of the "Khazarian Mafia," a group of Jewish billionaires, which is the root of all evil in this book.

The infection of dairy cows in Texas, Kansas, Michigan, New Mexico, and Idaho is likely to have leaked from a USDA laboratory. An experiment on gaining function of H5N1 was underway at the same facility. Did they let migratory ducks carry a virus that had been genetically modified to infect humans?

70 people are under observation in Colorado, USA, to see if they are infected. It is said that seven people are also infected in India. In Japan, the highly pathogenic H5N influenza virus was detected in the carcass of a hooded crane recovered in Izumi City, Kagoshima Prefecture in November 2023, but there have been no cases of human infection yet. Human cases of

infection will likely appear in Japan soon.

Here are some opinions scattered around the Internet.

"It's just my imagination, but they're plotting the next pandemic with avian flu H5N1, which has acquired human-to-human infectivity and moderate (?) virulence. At the same time, they're developing an mRNA vaccine for avian flu, which will be manufactured and sold at the Moderna factory under construction in Fukushima Prefecture. The system of public health fascism is also being politically organized. Yes. It's a "conspiracy theory."

(https://x.com/Dctr_K/status/1651400037166096384)

This person's speculation seems to be almost consistent with my reading. The avian flu pandemic occurred at a very good time, and the development of a avian flu vaccine was reported as if it had been waiting for it. The US Department of Health has begun production of 4.8 million doses of the vaccine, and Pfizer and Moderna are considering an mRNA vaccine. I see. Just like with the coronavirus, the mRNA vaccine will be provided to the world's people, who are frightened by the bird flu panic, in a timely manner, and they will be vaccinated. "Yes, yes, please line up. Bird flu H5N1 is scary. If you get infected, one in two people will die. The only way to save you is with a vaccine." They guide people.

And the people who get the vaccine spread the virus around them.

Vaccination was the way to spread the infection. This is what we learned from the coronavirus pandemic. Vaccination is the best way to spread

biohazards. The way to induce the masses to vaccinate is an artificial pandemic.

Research and studies on H5N1 are also being conducted in Japan, and a paper was published in the world's leading authority, NEJM, stating that a large amount of virus was detected in raw milk from cows infected with H5N1. A large amount of virus, more than 10 million per milliliter, was detected. When mice drank the contaminated milk, the virus multiplied in all organs.

If humans drank this contaminated milk without heating, there was a high risk of infection. Heating the milk seems to almost completely kill the virus. However, we cannot be at ease. According to the FDA, fragments of the H5N1 virus were found in at least 20% of milk sold in the United States. If humans could become infected with H5N1 from commonly distributed

heat-treated milk, the infection would spread rapidly.

I can imagine Bill Gates, the virus terrorist, looking pleased, saying, "Yes. That's it. The infection spreads through milk."

This research was conducted by Professor Kawaoka of the University of Tokyo. He is a distinguished professor who holds the titles of Specially

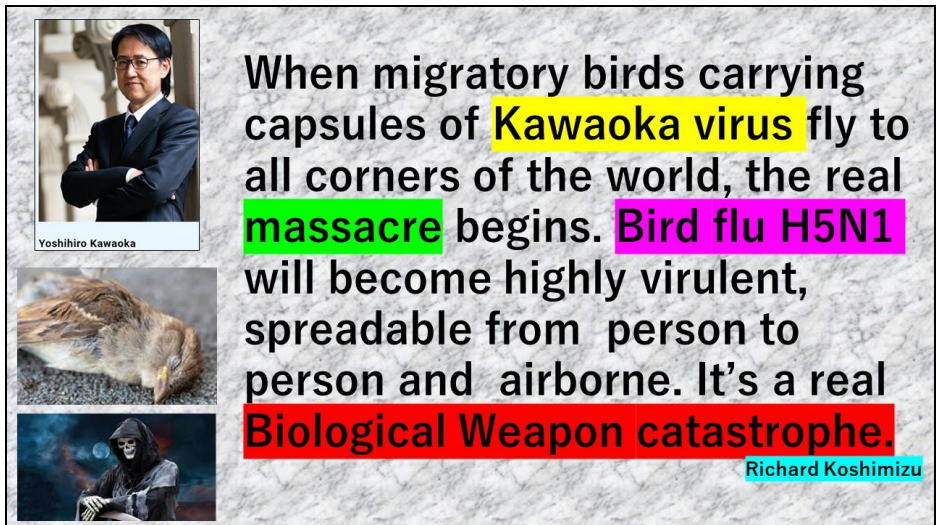

Yoshihiro Kawaoka (left) and Ron Fouchier (right) in 2012, after their work with H5N1 bird flu virus sparked a global controversy over research that can potentially make pathogens more dangerous to humans. MARTIN

research into gain-of-function mutations of avian influenza viruses. In 2012, Dr. Kawaoka, who was at the University of Wisconsin at the time, created an experimental strain of the H5N1 subtype together with Professor Fouchier of the Netherlands, which now stirs up some very frightening thoughts. They say it was for gain-of-function research, but what if an artificially created virus that is highly infectious to humans and highly toxic were to leak out?

Moreover, Professor Kawaoka's noble research is funded by Bill Gates. According to Mihoko Kashiwakura, Japan representative of the Bill & Melinda Gates Foundation and a member of the Soka Gakkai, the Gates

Foundation is also "supporting a project by Professor Yoshihiro Kawaoka of the University of Tokyo, a world authority on influenza research," and "Professor Kawaoka is aiming to create a universal vaccine that can acquire immunity to a wide range of strains with a single vaccination." The development of such vaccines will not move forward in the future unless modified virus strains that are most harmful to humanity are experimentally created. However, if the experimental strains created fall into the hands of terrorists, it could be a disaster. The virus terrorist we know best is a man named Bill Gates.

BIOTERRORISM: Gates Foundation awarded \$9.5 million to UW-Madison to make H5N1 bird flu transmissible to humans

I heard that Professor Kawaoka has received 900 million yen in research funding from Mr. Gates. Is this some kind of joke? I sincerely hope that when a new bird flu pandemic breaks out, the artificial virus created by Professor Kawaoka will not kill 90% of humanity.

The FDA has announced that a pandemic could occur that could kill one in four Americans, but wouldn't such a serious situation be possible without Professor Kawaoka's research results?

If the bird flu virus based on the H5N1 that Professor Kawaoka created were to leave the lab and spread to the human world, it could have a 60% mortality rate and 1.6 billion casualties.

Isn't it possible that what Bill Gates needed to actually get his plan to reduce the population by 90% in motion was the experimental strain created by Professor Kawaoka? Isn't it true that Gates began his plan to reduce the population by 90% because he had access to this excellent biological weapon?

By the way, it seems that researchers close to Bill Gates are promoted quickly. Professor Kawaoka was promoted from a rural university in the United States to become a professor at the University of Tokyo. Professor Kutsuna, who is well known for his slogan ``Get the vaccine," was also surprisingly promoted to a professor at Osaka University. Well, it's not surprising if you know the true structure of Japan and the world.

People die from infection with Professor Kawaoka's excellent biological weapon virus. Major media outlets affiliated with DS stir up fear of bird flu. Gradually, more and more countries experience deaths. The number of deaths also increases. It hits Japan. It is reported that mass production of mRNA vaccines for bird flu has begun at the right time. Moderna produces it in a Japanese factory with 24-hour operation.

The terrified masses are brainwashed by TV news that "the only way to survive is to get a vaccine," and they line up at mass bird flu vaccination sites, pale-faced, waiting their turn. Vaccines are scary. They worry about side effects, but convince themselves that it's better than getting sick with bird flu.

In 2024, the modified artificial H5N1 bird flu will attack humanity! Survive!

60% mortality, human-to-human transmission, airborne transmission, existing drugs are ineffective. 80% of Japanese are vaccinated and their immune system is exhausted, thus, bird flu infection leads to severe illness and most will die. Jap. Government has already prepared mRNA replicon vaccine for bird flu and encourages and forces people to get the poison vaccine. Both vaccinated and non-vaccinated will die.

This is the real terror plot by Bill Gates and his gang to reduce the population by 90%. The new coronavirus was just a prelude, and the real target was bird flu H5N1. High fever and acute respiratory symptoms. Difficulty breathing and pneumonia. The incubation period is 2-8 days. Death occurs an average of 9-10 days after onset. What about existing treatments? Ineffective. ECMO beds will be quickly filled. With financial support from Gates, a highly virulent virus created by a Japanese professor will wipe out the human race! Jap. Government is the enemy of the people. Gov. will kill people with VAX!

But there is salvation! Prof. Shiraki's Avigan and Pro. Omura's Ivermectin will eliminate both the virus and the vaccine's toxins. The Ministry of Health has deliberately not approved them, but it can be imported from India for personal use now. We, Japanese have plenty of such stocks at home. Prevent infection with Ivermectin. If you do get infected, Avigan will make your illness very mild. If you have stage 4 turbo cancer caused by the poison vax, please try Ivermectin! You will survive. Richard Koshimizu

The WHO believes that a replicon vaccine, which requires a small dose per person and grows in the body with a small dose, is ideal for distributing vaccines to many people. It is then reported that a replicon bird flu vaccine has been completed in an emergency. A very small dose is enough to cover the entire population. The naive fools are relieved, saying, "Now we're saved."

Bill Gates has been spending money on mosquito research. The purpose is to reduce infectious diseases, but mosquitoes can also be used to increase infectious diseases. Mosquitoes, which are active when temperatures are between 25-30° C, will suck the blood of someone who has been vaccinated with the replicon vaccine in early autumn 2024, and 10 minutes later, give it to a stranger in the house next door. The replicon vaccine, which works in very small amounts, grows inside the body of the person bitten by the mosquito. Myocarditis, systemic inflammation, blindness, myocardial infarction, cerebral infarction, cancer. It seems that even

mosquitoes were involved in Bill Gates' plan. I can only sigh.

The replicon vaccine for both corona and influenza, which was scheduled for September 2024, may suddenly be made into a three-type combination, with bird flu added.

The replicon vaccine multiplies inside the body and produces a large amount of spike protein. It will continue to be produced without limit. Even now, millions of people are suffering from the aftereffects of the corona vaccine, but this time, the number of patients will increase dramatically to an incomparable extent. Moreover, the vaccine components will leak from the body of the vaccinated person and infect their neighbors. Both vaccinated and non-vaccinated will be wiped out.

Bill Gates has made such meticulous plans and preparations. So, the replicon avian flu vaccine will be completed and provided to patients in the second half of 2024. As a result, everyone will take the vaccine and everyone will die. Except for those who understand the structure of the world and have taken the necessary measures.

At a dairy farm in the United States where an infected cow was found, more than 20 pet cats that regularly eat raw cow's milk were infected, half of them died and half of them became blind. It is transmitted from mammal to mammal. Humans are also mammals. It is transmitted from cats to humans. Not only cows, but also sea lions, alpacas, and farmed minks have been infected in masses, so humans are no exception. In fact, a mass infection has occurred in India, and seven people have been quarantined. Is it a virus strain that has been tampered with to infect humans? What do you think,

Professor Kawaoka?

The H5N1 epidemic is convenient for Bill Gates and his gang. In order to force the world's people to be vaccinated with a deadly vaccine, a pandemic treaty needs to be established.

The WHO treaty negotiations, which have been stalled by the conflict between developed and developing countries, are suddenly changed by the H5N1 panic. The argument that "there is no way to save the world other than through a vaccine" suddenly becomes the majority. Voices opposed to forced vaccination are muted and lose momentum. For Tedros, who is carrying out a genocide with Bill Gates, the bird flu uproar is very welcome.

Robert Redfield, who was the director of the CDC during the Trump administration, predicted in April 2022 that the next pandemic will be bird flu. And now it is asserted that this is an artificial virus. It is analyzed that it is a genetically modified virus that cannot exist in nature.

The world is playing around with H5N1. They say it is for research, but if it leaks out, it could cause a major disaster. An artificial bird flu strain is spreading around the world. Virus terrorist Bill Gates might encourage researchers to "accidentally leak" the virus all over the world. He might show stacks of bills in front of the researchers.

By the way, I believe that George Soros played a part in the spread of the new coronavirus. Next to the Wuhan virology research institute where the virus is thought to have leaked is Wuxi AppTech, a scientific company run by Soros. And there are some opinions that Soros is the real leaker of the

Wuhan virus. This is only natural.

Major vaccine manufacturers were concerned that bird flu would mutate and infect humans, so they developed a vaccine for humans. To develop this, they needed a virus with a modified base sequence that could infect humans for research purposes. Otherwise, there is no way they could develop an effective vaccine. Therefore, during the process of vaccine development, a dangerous artificial virus that can infect humans is created. It may leak out. The professor at the University of Tokyo and the researchers at Moderna were conducting research that carried the same risk.

Since vaccine manufacturers are friends with the terrorist Bill Gates, we should think that their real goal is to "create a bird flu virus that can infect humans."

By the way, all of the "major vaccine manufacturers" are run by CEOs of Jewish descent. Pfizer, Moderna, and AstraZeneca are all run by Jewish CEOs. And all the key people involved in the vaccine business are Jewish. In other words, vaccine manufacturers are in the company of Jewish billionaires, including terrorists Bill Gates and

George Soros. As for Moderna, the first president was George Soros. Jewish billionaires have banded together to launch virus and vaccine attacks on

humanity.

However, it is a mistake to say that "Jews are bad." Ordinary Jews are also victims of virus and vaccine terrorism. Many coronavirus deaths have occurred in Israel as well. The problem is the vicious group that nests within Jewish society. There seem to be various names for them, but the "Khazarian Mafia" may be appropriate. They are a devil-worshipping group of billionaires connected to the former Khazarian Khanate. It's extremely creepy that they sacrifice children.

It seems that these people are also connected to a cult that originated in the United States called Scientology. It is a cult that was arrested for child abduction and forced labor. It is as involved in crime as Jeffrey

Epstein, who was an ally of Bill Gates. The Georgia Guidestones, built by a Scientology guru, have the inscription "Maintain a population of 500 million as a permanent harmony with the natural world" at the beginning.

It is a cult that supports population reduction. And it is said that Bill Gates is a follower of this cult. The Khazarian Mafia and Scientology are perfectly in agreement on "population reduction."

If we analyze it up to this point, all the players are in place. The use of migratory birds to spread the epidemic around the world. A mutant strain that is easily transmitted to humans and has a high mortality rate has been created. Anticipating an epidemic, the development of a vaccine has been progressing quickly. Moreover, a replicon-type mRNA vaccine to further spread the disease has been developed at the perfect time. This mutant strain has the ability to truly wipe out billions of people from this world.

After all, it can only be thought of as the ultimate weapon prepared by the DS underworld. As usual, it is unlikely that an infectious disease will become a hot topic and disappear without causing any major problems. This time, I cannot sleep soundly. I feel that we should prepare for a major disaster.

(2) Background of population reduction

The central figure in the plan to reduce the population by 90% is Bill Gates, one of the leaders of the deep state. However, the late David Rockefeller and the late Henry Kissinger have been advocating population reduction for 50 years. However, the concrete plan was launched in 2009. It was when the main members of Jewish wealthy people gathered in New York for a secret meeting and decided that population reduction was the top priority of their shadow government. The chairman of the meeting was Bill Gates. Since then, Bill Gates has publicly stated that vaccines can reduce the population. Top newspapers such as the WSJ have reported on this secret meeting as a group of billionaires trying to reduce the world's population.

And so, they began taking action regarding viruses and vaccines. The WHO is a privately controlled organization run by the Biden administration and funded by organizations that Bill Gates is involved in. It is not an international organization under the United Nations. And Bill Gates has also poured money into the FDA, CDC, NIH, etc. to make them listen to his orders. As Bill Gates intended, they have begun a plan to inoculate the world's population with a dangerous vaccine.

Is Bill Gates a madman? I don't think he is. He is also a follower of a cult

called Scientology, which advocates that the world's population should be reduced to less than 500 million. However, major Jewish billionaires such as David Rockefeller, Soros, and Warren Buffet are all in support of his crazy agenda.

In order for Jewish billionaires, that is, the Khazarian Mafia, to continue to dominate the world, they are trying to

create a new world where they can completely control by wiping out troublesome opponents and troublesome obstacles. This is what is called the New World Order. To achieve this agenda, they adopted viruses and vaccines.

But which virus will they use to reduce the human population? If it is 90% of the population, it will not be possible unless a catastrophe such as has never been seen before in human history occurs. Moreover, if they do not possess the medicine or means to protect their lives, they cannot carry out the terrorist attack. They chose an artificial virus based on the bird flu H5N1.

Bill Gates understood that Avigan, developed by Toyama Chemical Co., Ltd. in Japan with financial assistance from the Pentagon, would protect the human body from bird flu. That is why they had the Japanese Ministry of Health, Labor and Welfare approve it under certain conditions and stockpile 2 million doses. However, they do not allow the public to use it freely. It is because of this drug that the grand terrorist plan was possible to carry out.

However, later, it was discovered that "ivermectin," which was developed by Professor Omura of Japan as a specific medicine for endemic diseases in Africa and won the Nobel Prize in Medicine, can also fight all RNA viruses. Therefore, they have devised a plan to prevent the Ministry of Health, Labor and Welfare from approving this drug, and have stockpiled 3 million doses in Osaka without telling the public. They have also had a pharmaceutical company they are in control of develop an injectable version of ivermectin. They are planning to use it exclusively for themselves.

The problem is the highly virulent bird flu virus, H5N1 type. Various other viruses have been talked about as "the next disease after corona." Ebola hemorrhagic fever, monkeypox, strep throat, etc. However, none of them led to mass deaths and were forgotten. Bird flu has been talked about many times, but it has not caused a major pandemic. However, this time, the underworld seems to be serious.

We interpret this as the world's richest people causing the corona disaster and then guiding people to get the corona vaccine because it is necessary for prevention. Both the Japanese government and the Ministry of Health, Labor and Welfare followed orders from these billionaires to give the people a poisonous vaccine. They thought that this was a plot to commit mass genocide.

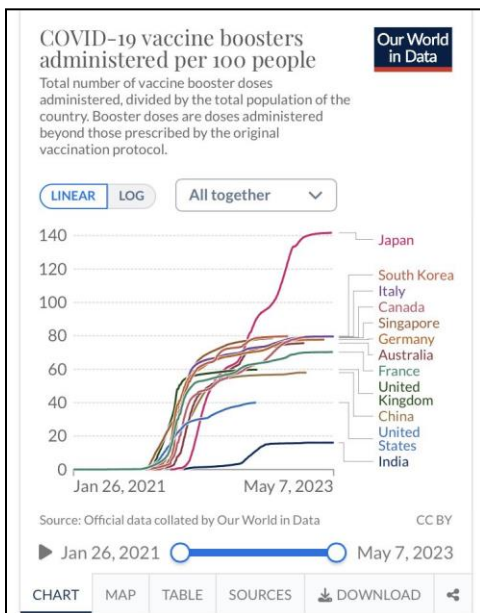

I understand that the vaccine, which is supposed to protect people from coronavirus infection, actually causes myocarditis, cerebral infarction, myocardial infarction, and cancer, taking the lives of those who receive it. It was predicted that two years after receiving the vaccine, poor health would become apparent and the number of deaths would increase.

It is true that by February 2024, there had been almost 500,000 excess deaths in Japan since the start of vaccinations. In fact, the frequency of reports of deaths of people we know has increased. And the deaths of celebrities are reported almost every day.

However, what the billionaires intended to do was not to reduce the number of mouths to feed by about 500,000 people. They wanted to

eliminate 90% of the population of Japan and the world. In that case, even if the coronavirus vaccine could make those who receive it sick, it would be unlikely to kill 90% of them. If a replicon self-replicating vaccine were used, the killing power would increase, but it would still be impossible to reduce the population by 90%. "How on earth do you reduce it by 90%?"

However, I realized this by looking at the recent actions of the terrorists involved in the coronavirus pandemic. "Inject the bird flu virus into the body weakened by the coronavirus vaccine and kill it." "Make them afraid of bird flu infection and kill them by getting them to take the bird flu vaccine." This was the ultimate method of bioterrorism. First, they sweet-talked as many people as possible into taking the coronavirus vaccine, which destroys their immunity.

Their plan was a great success in Japan. Japan has become the country with the highest number of vaccinations in the world. More than 80% of people have received the poisonous vaccine at least once. 17 million people have received up to the seventh vaccination. This is by far the highest vaccination rate compared to other developed countries. Japan was a country of

obedient sheep.

Before the vaccine was administered, the Japanese were attracting attention from the world because they were "resistant to coronavirus." The population ratio of coronavirus deaths is one digit, or even two digits lower.

The table on the left shows the number of coronavirus deaths per million population in each country as of July 2020. The worst was Belgium with 856. Meanwhile, Japan's was 7.8, two orders of magnitude different. Japan had factor X. Although they knew what it was, the authorities and the media did not make it public. Almost all Japanese people receive BCG in their childhood. It is a vaccine for tuberculosis. People who have received this BCG vaccine showed resistance to the new coronavirus. The yes/know on the right side of the table indicates whether the country has been vaccinated with BCG or not. The "Japanese strain" BCG adopted by Japan is particularly excellent and has demonstrated strong "cross immunity" against the coronavirus. The countries with many deaths were all countries that had not vaccinated with BCG or had stopped doing so.

In other words, Japan should have been able to deal with the coronavirus sufficiently with just the BCG vaccination that was administered decades ago, without implementing any coronavirus vaccines. Doing nothing would have been the best coronavirus countermeasure.

At the time, a report was made to the WHO that BCG was effective against the coronavirus, but Director-General Tedros turned it down, saying that the effectiveness of BCG was not known at this time. For Tedros, a terrorist who was hired by Bill Gates to spread the coronavirus pandemic,

BCG was only an obstacle to the execution of vaccine terrorism.

Before we knew it, Japan had won the crown of the country with the highest number of vaccinations in the world. Thanks to this, the BCG effect that had protected the Japanese people was destroyed by the spike protein produced by the vaccine, and Japan became the third country in the world in terms of the number of coronavirus deaths.

The highly virulent bird flu virus attacks the bodies of Japanese people who are exhausted from repeated poisonous vaccinations. There are several viruses with high mortality rates that could pose a threat to humanity, but bird flu H5N1 is the most suitable for killing a large number of people at once. Ebola hemorrhagic fever, rabies, and Marburg disease are viruses that could be used for mass genocide, but it seems that bird flu is what the underworld has been preparing for for a long time. Of the several dangerous viruses, it is likely that comprehensive research has been most advanced on new strains of influenza, including bird flu.

In fact, it seems that the bioterrorism using the H5N1 bird flu was planned to take place at an earlier date. However, something got in the way and it couldn't be carried out. It was probably Russian President Putin who got in the way.

When Putin's Russia invaded Ukraine, it first attacked the biolabs. The deep state was developing and producing biological weapons in Ukraine.

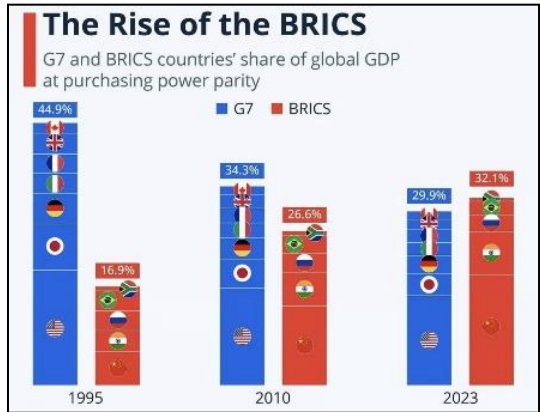

The Ukrainian war was originally a self-defense war by Russia. Putin sensed that a biological weapon attack was coming against Russia, so he launched a preemptive attack to put out the sparks. And among the 30 or so biolabs destroyed in the Russian attack was a development center for bird flu viruses.

If this biolab had survived, the deep state's bird flu offensive would have begun at an earlier stage. Vladimir Putin saved humanity from the attack of the Soros gang. For more about Putin's achievements, please refer to my book, "Vladimir Putin, the Savior."

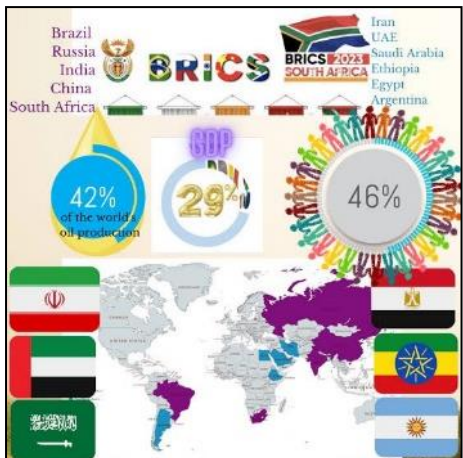

(3) Why did the deep state start the biowar?

What is the purpose of the DS biowar? It is to protect the wealth and power they have maintained for hundreds of years.

The G7, the alliance of nations of the Deep State, is showing a disastrous decline that makes you want to cover your eyes. The presence of the G7 in the world economy is fading year by year. It is no longer one of the world's developed countries. In 2023,

the GDP (purchasing power basis) of BRICS will surpass that of the G7. The G7 has been in a steady decline since 1995. On the other hand, BRICS is showing steady growth. Now, the center of the world economy is China and Russia, members of BRICS.

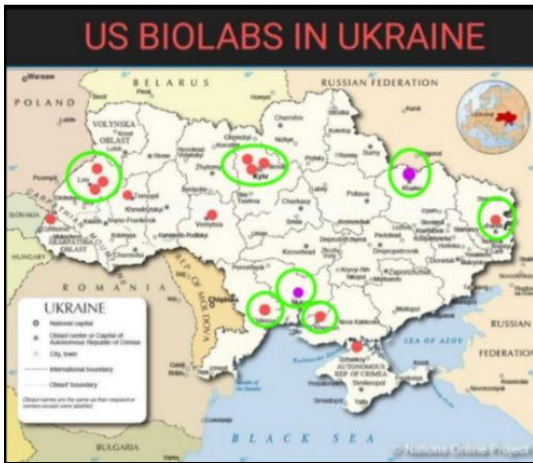

New members have joined BRICS since 2024. Oil-producing countries such as the UAE, Saudi Arabia, and Iran have joined. As a result, BRICS accounts for 42% of the world's crude oil production, 29% of the GDP, and 46% of the population. BRICS countries will trade crude oil in yuan and ruble in the future. The establishment of a new BRICS currency is also being considered. They will no longer use the US dollar to buy oil.

If the US dollar is no longer used in oil trading, the "petrodollar system" will collapse. The value of the dollar has been guaranteed precisely because it is used in oil trading. If BRICS comes to dominate oil trading, the demand for the dollar will disappear and the dollar will collapse. Since the dollar is the currency of the DS, Soros and his people will lose their large assets and fall into ruin.

Putin of Russia and Xi Jinping of China are the driving forces of BRICS. For George Soros and other DS billionaires, the heads of BRICS are their mortal enemies. Everything Soros does is a hindrance to Putin and Xi Jinping. And former US President Donald Trump is also Soros's nemesis.

George Soros, one of the Jewish billionaires, took over Ukraine after the Orange Revolution and the Maidan Revolution, and became the de facto king. He then installed Zelensky, a Jewish entertainer who is said to be related to him, as president. Since then, Ukraine has become a bridgehead on the front line against Russia's Putin.

George Soros used Ukraine to provoke Putin in order to eliminate Putin, who was an obstacle to the Jewish billionaire's world domination. Putin, furious at the Ukrainian military's persecution of Russian residents in Ukraine, had no choice but to invade Ukraine.

The first thing he did was to attack and destroy the bio-labs in Ukraine. The target of the attack also included the development center for bird flu, which has a 40% mortality rate and was set up by the United States in Ukraine. Putin must have realized the DS's intentions for bio-warfare through this invasion. I interpret this as the destruction of the bird flu base, which led to the bird flu terrorism plan being thwarted and postponed.

Rabies was also one of the highly toxic viruses that the DS planned to use. Snake Island, which was occupied by a surprise attack by the Russian military on the first day of the invasion, is an island in the Black Sea. In a bio-laboratory on this island run by the Israeli government and Mossad, research was conducted on aerosolized rabies virus. If Russia had not invaded, rabies with a 100% mortality rate might have spread around the world by now.

However, this fact is not reported at all by the Japanese or Western media. The Japanese public, who are unilaterally forced to accept biased reports

from the media critical of Russia and Putin, are led to believe that Russia and Putin are bad guys and invaders.

In this way, the public who blindly accept information from the government and the media easily fall prey to the power of the DS. They jump at the poisonous vaccine prepared by the DS and get vaccinated without thinking much about it. The price will follow them for the rest of their lives as a negative legacy. Wise people do not blindly accept what the media says. They research and think for themselves. Therefore, they do not unilaterally criticize Russia or vaccinate.

Soros was also involved in the Aum incident. Aum Russia was a puppet of DS. DS used the Unification Church, with which it cooperated, to seize control of Aum. It seems that they then used Aum's organization to convene the Jewish residents of Russia and create a Russian civil war. Soros tried to divide Russia and separate the Jewish state. In other words, he tried to revive the Khazar Khanate, which was destroyed in the 10th-11th century. This destroyed state had Judaism as its state religion.

And the Khazar Khanate is the ancestral land of Soros and other Jewish billionaires. Mr. Putin is well aware of the

circumstances. That's why, after the Aum incident, he completely banned the activities of Aum remnants in Russia. That's as you'd expect. Incidentally, Aum was taken over by the Unification Church. Unification is DS's partner in evil deeds. Therefore, they have set up a branch in Ukraine and are moving about. Ukraine is a hotbed of money laundering, drugs, human trafficking, and organ trafficking. On the other hand, the Unification Church cannot operate in Russia. Putin is already aware of the true identity of the Unification Church.

Aum Russia's plot failed, but Soros gained half of the territory of the Khazar Khanate by taking over Ukraine. The national emblem of Ukraine is the same as that of the Khazar Khanate. Soros planned to privatize Ukraine, turn it into a bridgehead against Russia, and involve Putin's Russia in the conflict and bring him down.

Soros attempted to assassinate Putin but failed. In 2014, MH17 was "shot down" near the border between Russia and Ukraine. It was an Amsterdam-

Kuala Lumpur flight. It is believed that it was the Ukrainian military that shot it down. The MH plane was mistaken for President Putin's private plane and was attacked. The MH plane and Putin's plane were supposed to fly on the exact same route. And the paint colors of the two planes were very similar. So, it was mistakenly targeted by the missile. About an hour after the incident, Putin's plane flew on almost the same route and landed safely. Soros failed to assassinate Putin.

Now that the world domination of the Khazarian Jewish billionaires is fading, Soros wants to drag Putin down from his position of supreme authority in Russia and replace him with a puppet that is convenient for the Jewish billionaires. He tried to defeat Putin in the Ukrainian war. He tried to get the support of the G7 to make Russia surrender.

But he was thwarted by Putin's strong will. The Ukrainian war ended in a de facto victory for Russia. But Soros cannot admit defeat.

What tactics did he use against Xi Jinping, another nemesis of Soros? It is surprisingly unknown that the Tiananmen Square incident was the work of Soros. Although the Tiananmen Square incident failed, it was the first case of color revolutions that Soros carried out in Eastern Europe, such as Ukraine and Georgia.

The Hong Kong protests in December 2019 were also the work of George Soros. A human rights group called Human Rights Watch played an active role, but it was funded by Soros. Members of the Azov Battalion, a regular army unit sent from Ukraine by His Majesty King Soros of Ukraine, participated in the Hong Kong protests.

Soros also carried out a plan to assassinate all the Chinese Communist Party officials. However, it failed. That was the disappearance of Flight MH370. Boeing's latest aircraft is equipped with an "autopilot" function that can disable on-board controls and remotely control the aircraft from the ground as a measure against hijacking. Flight MH370 was heading from Kuala Lumpur to Beijing, but the controls were taken over on the way and it was almost remotely controlled to crash into the National People's

Congress venue in Beijing. The National People's Congress was being held at the time, and Communist Party officials were gathered together. If the Boeing plane had crashed into the building, it would have been a disaster.

However, just before the crash, a warning was received from a Taiwanese source to the Beijing government that an unidentified aircraft was about to crash into the building, and the Chinese Air Force intercepted and drove Flight MH370 back. The plane turned back, went out into the Indian Ocean, headed south and disappeared. It is said to have been missing from there. On its way south, the MH flew at a very low altitude over the Maldives and then flew south. This was to avoid being detected by radar. There have been multiple witness accounts from local residents.

The flight direction was the British territory of Diego Garcia, where the CIA's airport and prison are located. MH370 landed on this island, and the crew and passengers were detained in the prison. A British IBM engineer on board

contacted his girlfriend by mobile phone message saying that he was "held captive." And the message had a completely black image attached. There was nothing in the picture, but the coordinates of the image showed Diego Garcia. What happened to the crew and passengers after that? I think something that I don't really want to imagine happened to them.

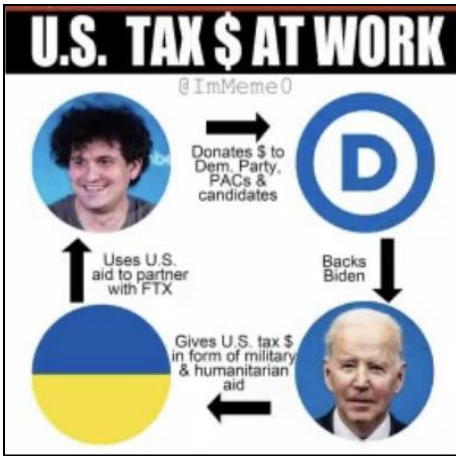

The US authorities have issued a statement, even without being asked, that

"Diego Garcia has nothing to do with the MH370 incident." After that, planes from the relevant countries flew over the Indian Ocean for a long time, searching for Flight MH370, but it was never found and the case became a mystery. It was only natural that it became a mystery. The hope was on Garcia Island. No matter how much the sea was searched, it would never be found. As you can see from this, Soros has a great influence on the US government. The CIA works for Soros.

Now, Soros has a secret plan to prevent China's economic rise from being allowed any further. It is to start an armed conflict between Japan and China. Japan and China are heavily dependent on each other economically. China and Japan are each other's largest trading partners. China imports intermediate goods from Japan to manufacture finished products. More than 20,000 Japanese companies have expanded into China. Therefore, if a war breaks out between Japan and China, trade will stop and both Japan and China will be economically exhausted.

Soros has ordered the Kishida administration to promote the integration of the Japanese and US militaries. He is planning to expand the military limitlessly with Japanese tax money, provoke China, and cause a conflict between Japan and China. Put the Self-Defense Forces under the command of the US military in Japan and set China and Japan against each other.

Japan's "emergency clause" and "constitutional amendment" movements are preparatory actions with Soros's planned Sino-Japanese war in mind.

The third nemesis of Soros is Donald Trump. Trump, who is a non-Jew and incompatible with the DS, is the biggest enemy of George Soros, Bill Gates, and Klaus Schwab.

If Trump becomes president, the United States will announce that it will withdraw from the Ukraine war on the same day. It will stop administering the coronavirus vaccine on the same day and withdraw from the WHO. Ukraine is the lifeline of the DS. In fact, aid for Ukraine is flowing back to the US Democratic Party. In other words, they are using Ukraine to launder money and funneling funds

Trump thought Ukraine 'must be part of Russia' during presidency, book says

Ex-president 'could not get his head around the idea that Ukraine was an independent state', former adviser Fiona Hill tells author

to the Biden Democratic Party. The US Democratic Party is stealing US tax money. That's why the war in Ukraine cannot be stopped.

Soros is using all means to prevent Trump from becoming president. But it doesn't seem to be going very well.

On January 6, 2021, a mob claiming to be supporters of Trump broke into the U.S. Capitol, claiming that there was election fraud in the 2020 U.S. presidential election, resulting in deaths. Later, the U.S. House of Representatives attempted to impeach Trump for his involvement in the attack and for inciting an insurrection. It failed, however.

In fact, the group that carried out this attack was a group called QAnon, which claims to support Trump. QAnon is closely related to a Korean cult religion called the Sanctuary Society. The Sanctuary Society is an offshoot of the Unification Church. In other words, the Unification Church forces, which are in collusion with Soros, intentionally caused violence to cause Trump to be impeached. ANTIFA, which is under the control of Soros, also participated in this attack.

On the contrary, Chance Ray, the central figure in the attack, was photographed with leaders of the Ukrainian Azov Battalion, Soros' private army. In short, this attack was planned by Soros.

Trump has been charged with multiple crimes, including paying hush money to prostitutes, and some have been found guilty. The judges serving on Trump's trial are selected with Soros's funds. Soros is using his money to somehow make it so that Trump cannot run for president. However, in reality, Trump's approval rating is very high, while Biden has almost no

support. The media, which is managed by the DS, reports lies that the race is close and that Biden has a slight lead. However, no matter how hard Soros struggles, he cannot overturn Trump's election.

Soros is trying all sorts of strategies, but none of them are working. If things continue like this, it is only a matter of time before the DS falls apart. The collapse of the dollar is also approaching. Is there a way to reverse this terminal condition in one go and restore the DS to power?

I think that is bird flu. Will people all over the world, both those who have been vaccinated and those who have not, die from bird flu H5N1 infection, or die from receiving the bird flu vaccine (mRNA type, replicon vaccine)? Will people die from bird flu infection due to vaccination? The world is in fear of a pandemic. There is no effective treatment. The mortality rate is very high. Even if you go to the hospital, doctors and nurses are the first to be infected with H5N1 and die.

The government will stop functioning, and hordes of dying zombies will roam the streets. Then, about 10 days after infection, patients will die from respiratory distress. Cremation will not be possible in time. A large portion of the population will disappear. If this happens, the hegemony of BRICS will be gone. The US dollar, which is strong in times of emergency, will be bought. The dollar will be spared from collapse.

Only the DS members who have a cure and the DS "servants" will survive. Africans and Hispanics who hate DS will be rooted out and eliminated. The Chinese and Japanese, who are useful, will be spared a little.

If such a chaotic situation begins, there will be no time for the US presidential election. The election will be postponed and President Trump will not be inaugurated. Biden will continue in his presidency for the time being.

In order to maintain the DS's world domination, they will not hesitate to commit mass murder.

(4) Complete secrecy of the bird flu pandemic

To make the bird flu pandemic a success, it is necessary to proceed with preparations without the public realizing it, and suddenly explode the virus bomb before the public can take measures. The public will be flustered by the sudden bird flu pandemic. The government will not be able to offer any measures. In fact, it will deliberately not take any measures.

To do this, it is necessary to keep the public's attention glued to other issues until the D-day comes.

When watching TV, there are many government commercials and programs that warn that various infectious diseases are increasing. Streptococcus, RS virus, etc.

Of course, it is because of vaccines. Vaccinations destroy the immune system, making people more susceptible to various infectious diseases.

However, there is an infectious disease that the media never mentions. It is bird flu H5N1. It has the potential to cause far more serious damage than other infectious diseases, but the media never covers it. In the United States, human infections have been reported, but it is not reported. I believe that media censorship is at work. In order to proceed with the bird flu terrorism in secret, they don't want the public to make a fuss right now.

Most of the public are indifferent to both corona and vaccines, and are defenseless with zero sense of danger. They don't even realize that they are

suffering from vaccine aftereffects even though they have been vaccinated. They think that their recent poor health is due to age.

People who are not feeling well have certainly had corona in the past, so they think that it is corona aftereffects. In reality, the process is vaccination → corona infection → vaccine aftereffects. The government does not acknowledge the existence of vaccine aftereffects, and insists that they are corona aftereffects. The news repeatedly misleads people into thinking that millions are still suffering from corona aftereffects. Patients have been fooled and are suffering alone.

These people will not notice the bird flu terrorism even if they are left alone. They will either catch bird flu as planned, or get the dangerous bird flu vaccine, and die smoothly, just as Bill Gates and his gang intended.

The problem is people who realize the harm of vaccines and are denounced by the government's Ministry of Health, Labor and Welfare. In April, tens of thousands of people participated in a demonstration against the pandemic treaty in Ikebukuro, Tokyo. If they realize that bird flu is the main cause of the pandemic and start making a fuss, it will be more than just a 90% reduction in population. Protests against the government's Ministry of Health, Labor and Welfare will not end with demonstrations. People will die. Will Taro Kono and Katsunobu Kato, who were in charge of vaccine administration, be safe? Also, it would be a problem if people knew that there is a cure for bird flu. We want the public to believe that "the only option is a vaccine."

If information about the bird flu terrorism spreads in Japan, it will soon be

recognized by the world. If that happens, the bioterrorism itself will be thwarted.

That's why the DS underworld is using its secret weapon. In fact, people who are under the control of the DS underworld are at the center of the "anti-vaccine" movement. Many anti-vaccine doctors are involved in a somewhat specialized medical field called orthomolecular medicine. They provide private medical care that does not fall under the category of traditional health insurance. Yanagisawa, who was at the forefront of the Ikebukuro demonstration, is the highest authority on orthomolecular medicine in Japan and is also the Japanese representative of the WCH, an international organization that opposes vaccinations. The parliamentary league of anti-vaccination lawmakers is also the "WCH Diet League."

If you look closely, you will see that the address to which the 1 million signatures against vaccinations should be submitted is listed as the Orthomolecular Medicine Society. There is a Hino City Council member named Ikeda who is in a position similar to Yanagisawa's deputy. He is the secretary-general of the Association of Cervical Cancer Vaccine Victims.

And orthomolecular medicine has a close relationship with Scientology, a cult religion that originated in the United States. Ikeda seems to be one of them. Orthomolecular and Scientology are always treated together. Some orthomolecular doctors admit that they are Scientologists.

Is there anything wrong with anti-vaccination people having ties to Scientology? Yes. Scientology is a cult founded by Ron Hubbard in the United States in the 1960s, and the first of its doctrines is to "keep the

world's population below 500 million." The Georgia Guidestones erected by Hubbard clearly state that the population should be reduced to 500 million. Someone later destroyed them, though. It's a bad joke that people associated with a cult whose doctrine is population reduction are at the center of a movement against vaccination, which is a means of population reduction. The organization at the center of the opposition movement is a disguised group. And Bill Gates, the perpetrator of the population reduction terrorism, is a follower of Scientology.

Most of the people who participate in the anti-vaccination movement are ordinary people with no evil intentions. However, at the core, it is clear that "members of the organization" are at the center. For some reason, followers of various cults are mobilized. These include the Sanctuary Society, a branch of the Unification Church, the Sacred Political Party, which is the hidden political division of the Sanctuary Society, Happy Science, Scientology, and the Raelian Movement. It seems that right-wing groups related to the Unification Church are also mixed in. Why do cults shout against vaccines?

Cults in Japan are protected by the religious tax exemption system, so they are not investigated by the national tax office. As a result, they are used for money laundering of unclear money. The flow of money is inside a black box. Funds extracted from believers and profits from drug trafficking in the underworld are passed on to DS millionaires through the cults, and are invested in drug smuggling businesses in South America, generating huge profits and returning them. From the perspective of DS millionaires, Japanese cults are very good at raising large amounts of money. From the perspective of cults, DS is a grateful partner that doubles their money

through management.

For example, the Society for the Prevention of Vaccines says that it makes huge profits by having Rockefeller manage 60 trillion yen a year. However, it seems that Rockefeller used the money from the Prevention of Vaccines to compensate for his own losses during the Lehman Shock, which caused some trouble.

Population reduction religions and drug money laundering religions are leading the anti-vaccination movement in Japan. So what is their purpose? One of them is to manage and supervise those who are anti-Wanchin. They monitor and guide them so that they do not make any statements or actions that are inconvenient to the DS underworld that carries out the vaccine terrorism. If necessary, they make them listen to what they say by bribing, threatening, or providing servitude. They control the vector of the opposition movement and try to conceal the parts that the DS does not want the public to know.

Their current claims are "against the pandemic treaty" and "against replicon vaccination." On the other hand, almost none of them mention the "bird flu H5N1 terrorism" that the DS is promoting. They do not even mention the miracle drug that will protect humanity from these epidemics. Specific treatment methods for vaccine aftereffects are almost never discussed. It is very strange. Even if a very small number of influencers come across bird flu and sound the alarm, the majority of the remaining anti-vaccine people remain silent.

In other words, if they do not notice the progress of the bird flu terrorism and just shout against the treaty and against vaccination, there will be no

obstacle to the DS's plans. The anti-vaccination movement in Japan was organized to carry out the bird flu H5N1 terrorism. In order to control the entire anti-vaccination movement as the DS intends, it is best to use a group of cult followers who move in unison at the command of the cult.

In fact, it seems that several people who participated in the demonstration felt that "Oh, this is not a group of ordinary people." If it becomes known that the main agent of the bioterrorism is bird flu, that it will soon attack the world, and that prevention and treatment are possible with a specific medicine, the bioterrorism will not be completed. Those involved will be denounced. The LDP and Komeito will lose power. Therefore, for the DS, whether or not they can control information now will determine the success or failure of the entire terrorist plan.

It is natural that the members of the anti-vaccination movement do not mention bird flu at all. It is a "fake anti-vaccination movement" to cover up the bird flu plan.

Now, the Kishida administration is showing some movement to control speech. It seems that a cabinet decision will be made in June to constantly monitor "misinformation." In fact, it seems that they are already recruiting a large number of part-time Internet monitors. Apparently, they want to silence anyone who is spreading "correct" information that is inconvenient to Bill Gates and his gang regarding the pandemic.

I think this is also because they want to cover up information related to bird flu. They want to make sure that H5N1 bird flu suddenly breaks out and the situation quickly gets out of hand. They need an information control plan to proceed secretly so that the public doesn't notice the bird flu. They

want to eliminate anyone who talks about bird flu.

Well, do your best. I think you're underestimating the Japanese too much, though.

I also understand that the amendment to the Local Autonomy Law is a bill that allows the use of strong powers to carry out bird flu terrorism.

When a bird flu panic breaks out, it gives the state strong powers. Kishida can decide anything by cabinet decision as instructed by Bill Gates.

They are trying to pass this strange bill that allows such barbarism without any explanation. There is no way they can reveal that it is for the purpose of carrying out a bird flu terrorism plan, so they only give vague answers.

No clear reason for giving strong powers to the state is given. They say it is to prepare for the "unexpected", but what does that mean? I would like them to be honest and say, "The state will carry out bird flu terrorism, so please use your strong powers."

The Japan Innovation Party, a political force outside the LDP owned by former Prime Minister Yoshihide Suga, who has collusion with the Unification Church, supports this foolish bill. Would you like to arrest and silence all the commentators who are inconvenient to the underworld like RK? Would you like to take advantage of the confusion and restore the Unification Church to power? It would be interesting, so please give it a try.

(5) How to survive the bird flu disaster

So far, I have dared to expose the truth about the bird flu terrorism.

This time, we will show the existence of a miracle drug

that can protect the people from H5N1 infection and treat them if they do become infected. We will fail a bioterrorism attack originating in Japan.

However, a human sweep operation has already been launched. It cannot be completely prevented. It seems inevitable that many bird flu victims will occur in the future. And as more and more victims occur, humanity will finally realize the true structure of the world.

So, if you are infected with bird flu H5N1, will 40% of people die? Even if you survive, will your eyes bleed, you will get conjunctivitis, and you will go blind? Are Tamiflu and Relenza ineffective? It seems that there is not much hope. So, is there nothing we can do other than suppress the symptoms with symptomatic treatment? It seems that we have no choice but to rely on the patient's vitality.

Half of the patients will develop pneumonia, have difficulty breathing, and die of suffocation. Cardiopulmonary bypass (ECMO) beds will soon be full and will not be provided to the countless pneumonia patients. Doctors and nurses are the first to be infected with bird flu, and hospitals cannot continue to provide medical care or treatment.

But there is a way to avoid such a tragic outcome. There is a cure for bird flu. It is Avigan (generic name Favipiravir), developed by Toyama Chemical in Japan. It is a high-performance drug that works with a new mechanism, replacing antiviral drugs such as Tamiflu and Relenza. It is truly the best drug for pandemics of new influenza viruses, including bird flu. If taken in the early stages of infection, the virus will disappear quickly. It will not become severe. The Ministry of Health, Labor and Welfare has conditionally approved it, stating that it will be used only during a new influenza epidemic when there are no other suitable drugs, and the Ministry of Health, Labor and Welfare has stockpiled 2 million doses.

With this medicine, bird flu is not scary. However, in the event of a coming bird flu pandemic, the Ministry of Health, Labor and Welfare's stockpile of 2 million doses will not be useful. The Ministry of Health, Labor and Welfare has already prepared an mRNA/replicon vaccine for bird flu H5N1. Before we knew it, they had created a vaccine.

For millionaires such as Bill Gates, who are pushing for a population-reducing vaccine for all mankind, the biggest obstacles are special medicines

Ivermectin and Avigan. If they use these medicines

for prevention and treatment, they won't be able to force a killer

vaccine on us. Novel Coronavirus will be repelled in a month. Bill

Gates cornered by the offensive of Ivermectin, is using their puppet organization, the WHO, to desperately sabotage it. India, Peru, and

other countries that had once conquered coronas with ivermectin

suddenly changed their policies to heavy use of vaccines. This will

bring us back to square one. Japan has also sealed Ivermectin.

However, the millionaire's forceful cover-up measures would be

counterproductive. They won't be able to stop the adoption of

Ivermectin. Meanwhile, the spread of infection and damage will

proceed in vaccine adopting countries. People all over the world will

be awakened.

The Ministry of Health, Labor and Welfare is a den of terrorists, and they are plotting to cull the people by injecting them with the bird flu vaccine. That's why they will make an excuse not to release Avigan and prevent it from being used.

However, since there are only 2 million doses to begin with, even if they were to release it, it would only reach one in 60 of the 120 million people who are terrified of bird flu. Furthermore, antiviral drugs are meaningless unless they are administered in the early stages of infection. It takes several days after it is discovered that bird flu has developed before it actually reaches the patient. It's too late. They're already dead. At worst, they'll die two days after the onset of the disease.

On the other hand, the politicians and bureaucrats who are working with Bill Gates to kill the people will be provided with Avigan from the 2 million doses of the stockpile to protect their own lives from bird flu. In fact, at the

height of the COVID-19 pandemic, there was a rumor going around the internet that politicians and bureaucrats would be given Avigan for free if they asked someone at the Ministry of Health, Labor and Welfare, and the person in question desperately denied it. How are you, that bureaucrat?

The Abe administration was asked to provide Avigan to 45 countries around the world. Perhaps this will protect the lives of Bill Gates and his allies from H5N1. In the end, the Ministry of Health, Labor and Welfare did not approve Avigan for use against COVID-19 because it could not prove its effectiveness.

When the Ministry of Health, Labor and Welfare did not approve Avigan, it released a huge list of data on its use. Thank you to the person in charge who blacked out the data. This huge list of blacked-out documents is proof of Avigan's effectiveness and proof that the Ministry of Health, Labor and Welfare is a terrorist group.

There are some complicated circumstances surrounding Avigan. During the development stage, the military in the United States and China showed interest. Avigan is effective against all RNA viruses. If a war using biological weapons breaks out, if we have Avigan, we can protect our soldiers and citizens from attacks by viruses launched by enemy countries. That's why the US Pentagon provided Toyama Chemical with 20 billion yen in development funds. Meanwhile, China's People's Liberation Army also showed interest. A pharmaceutical company affiliated with the People's Liberation Army was secretly developing a similar product to Avigan. Fujifilm, which later acquired Toyama Chemical, filed a patent dispute with China. And China recently applied for and was granted a

patent related to Avigan. Avigan has been taken over by China.

DS realized the importance of Avigan. That's why they ordered then Prime Minister Abe to have Fujifilm acquire Toyama Chemical. They wanted Fujifilm, a member of the DS, to manage Avigan. And by having the Ministry of Health, Labor and Welfare exclusively stockpile Avigan, they put it under their control.

When the corona pandemic broke out in early 2020, Avigan played a major role. The patients who contracted COVID-19 on the Diamond Princess were transported to Fujita Health University Hospital and other hospitals and treated with Avigan. Avigan was administered under the Ministry of Health, Labor and Welfare's "observational study" scheme, and saved the lives of hundreds of patients. Originally, Avigan should have been approved as a drug at this point, but the Ministry of Health, Labor and Welfare had the role of having the public receive a poisonous vaccine and kill them. Avigan was criticized for being "not subject to drug approval even if the results of observational studies are good, and to this day it has not been approved for use with COVID-19. They made it the subject of observational studies from the beginning because they did not want to approve it.

By the way, in May 2024, the Ministry of Health, Labor and Welfare approved Avigan for use with tick-borne diseases (SFTS). It is a disease that affects hundreds of people a year and has a high mortality rate. Why did they approve Avigan at this time? It's a mystery. There was no reason to not approve it, so they had no choice...?

The Ministry of Health, Labor and Welfare deliberately did not approve Avigan for use with COVID-19, even though it was highly effective against COVID-19. I think this is because they plan to "make bird flu epidemic in the next step." When they make bird flu epidemic, they don't want the public to think that "Avigan worked on COVID-19, so it should work on bird flu too." They want patients to think that the only option is a bird flu vaccine.

While the Ministry of Health, Labor and Welfare was hesitating, the People's Liberation Army of China applied for a patent for Avigan and it was approved. Now, it seems that Avigan-like drugs are the first to be administered to patients infected with COVID-19 in China.

So, even though Avigan can protect you from bird flu, the Ministry of Health, Labor and Welfare won't issue it. It won't be prescribed in hospitals. So what should we do?

At the beginning of the COVID-19 epidemic, we, volunteers on the Internet, focused on the fact that "antiviral drugs need to be administered at the early stage of infection." We also thought that preventive administration could prevent infection. However, Avigan is not approved by the Ministry of Health, Labor and Welfare, so it is not available in Japan. Therefore, an attempt was made to personally import an equivalent version of Avigan from India, where generic Avigan is produced.

It is legally permitted to import generic drugs for personal use or for family and friends. Therefore, we ordered the medicine from India through a trading company. The airmail arrived in about two weeks. We took a small

amount to prevent infection. We "lent" Avigan to people infected with the coronavirus at their request. They were very grateful. Many of them were relieved from their painful illness. After recovering, patients who imported Avigan themselves returned the amount they had lent. During this process, Avigan stockpiles built up in Japan. Now, Avigan is stockpiled all over the country.

People who had Avigan stockpiles began to stockpile Ivermectin as well due to the subsequent changes in coronavirus countermeasures. Ivermectin is the result of Nobel Prize-winning research by Professor Omura of Kitasato University, and is a divine medicine that is effective against all viral infections.

The Indian government is also aware of the importance of Avigan and prioritizes its use to meet domestic demand. Therefore, there seems to be a quantitative limit on exports. Ivermectin has numerous manufacturers and is relatively inexpensive. It has a good antiviral effect and is known to be usable against both COVID-19 and avian flu. As a result, Ivermectin is stockpiled in quantities several times greater than Avigan. Tens of millions of tablets are stockpiled throughout Japan. It is nothing but a black joke that we have to import the original Japanese lifesaving drugs Avigan and Ivermectin from abroad.

We have been using Ivermectin ourselves for several years and are amazed at its power. Once the high fever from the corona infection goes down quickly and returns to normal, it is no different from normal. There are almost no aftereffects. If you think you might have a bit of a cold, take it right away. It will get better right away. My hay fever and floaters are cured.

My cataracts are cured. My sinusitis is cured. My diabetes is almost cured. I also lost 10 kilograms. My kidney disease has improved and I no longer need dialysis. My liver disease is cured. Ivermectin feeds the bifidobacteria in the intestines, improving the intestinal environment, and curing various diseases.

The Jap government, the Ministry of Health, Labor and Welfare, and the WHO are being forced into a corner as the world has begun to realize that "the initial dose of ivermectin can eradicate Corona".

Humanity is waking up to the fact that vaccines are useless and harmful. The genocide and population reduction fantasies of Bill Gates will no longer be realized. DeepState will be uprooted and exterminated. The millionaires will "commit suicide" by self-destruction.

And that's not all. People who have stage 4 turbo cancer after receiving the vaccine are pinning their hopes on ivermectin. Most of them have pancreatic cancer and leukemia. There are also lung and colon cancers. Stage 4 patients with only 3 months to live are surviving one after another. A leukemia patient who was undergoing dialysis in the ICU with only 3 months to live has gone into remission and is now working hard on rehabilitation in preparation for discharge.

It's clear. Ivermectin is a miracle cure for all kinds of cancer. All cancer that has metastasized throughout the body will disappear with 3 months of medication. I don't think it's unbelievable. I didn't believe it either. Until I heard more than 30 cases of "survival reports."

I think ivermectin is also extremely effective against bird flu H5N1. Bill Gates bribed a researcher to write a paper stating that ivermectin is ineffective against the new coronavirus. NEJM published the fake paper, and NHK went out of their way to report that it "didn't work." Later, it was discovered that the results of the clinical trials had been altered, and that Bill Gates had paid a lot of money to falsify the results. Even though there were 60 other papers that said "Ivermectin worked." Bill Gates had his protege Merck acquire the largest Ivermectin manufacturer in India, hindering Ivermectin production. Anyway, I think the reason Bill Gates' uncle is pushing ahead with crushing Ivermectin at all costs is because Ivermectin is a miracle cure for bird flu.

Ivermectin
THE WONDER DRUG

IF YOU DONT HAVE IT- YOU BETTER GET IT!
HERE IS A SMALL LIST OF THINGS IT CURES

ALL CANCERS	THYROID
BRAIN LESIONS	REVERSES AUTISM
DIABETES	ARTHRITIS
KIDNEYS	RINGING IN THE EARS
HEART	TOXIC METALS
LUNG	CO-INFECTIONS
EYE SIGHT	ECZEMA
COPD	SKIN SPOTS
MS	INFECTIONS
HIV/AIDS	SCARS
LUPUS	COVID
LYME DISEASE	ACNE
TRIGLYCERIDES	

In the future, when bird flu H5N1 attacks, people who regularly take preventive doses of Ivermectin will avoid infection. If people do become infected, they will recover with mild symptoms if they are administered Avigan. Lives will be saved,

and there will be no serious aftereffects. People who have Avigan and Ivermectin will be saved. To increase the effectiveness of the medicine, be sure to take zinc and vitamin D. Sunbathe. To improve your intestinal environment, practice autophagy (intermittent fasting), a Nobel Prize-winning research result by Professor Ohsumi of Tokyo Institute of Technology. Other defenseless people will die one after another.

Because Ivermectin is administered as a preventative measure, you will not be infected in the first place. (For example, I have not been vaccinated, but thanks to the preventative administration of Ivermectin and Avigan, I have never been infected with the coronavirus.) Even if I am infected, I will take Avigan immediately and recover in a few days. I will not die. This is the only way to survive. The only way to survive is to stockpile medicine yourself.

Many patients with terminal cancer whose life expectancy is short can survive as their systemic cancer disappear when taking Ivermectin and Avigan. You better import them yourself now and survive! I'm serious!

Ivermectin is not only effective against viruses, but also has a remarkable effect on all cancers. Many people have survived stage 4 turbo cancer caused by vaccination. It seems that expensive and burdensome anti-cancer drugs and radiation therapy are not necessary. If you have two months to live, please try Ivermectin. Avigan also has anti-cancer properties. Taking the two drugs together seems to be extremely effective.

You can still get the medicine if you buy it now. Some popular products are out of stock and prices are rising, but they are still available. If you get it now, your life will be saved.

Once the people of the world realize that Avigan and Ivermectin are life-saving medicines for bird flu, they will sell out in a flash. They will no longer be available. I strongly, strongly, strongly recommend that you get it now at all costs. The expiration date seems to be 3-5 years if stored in a cool, dark place. Both drugs have almost no side effects. There does not seem to be any drug resistance. Ivermectin has a good affinity with fat, so it

seems best to administer it after a meal.

As an idea, usually, you take one tablet of Ivermectin (12 mg formulation) twice a week for preventive purposes, and if you become infected, take 4,000 mg of Avigan on the first day and about 1,500 mg from the second day. It seems that the cure will be complete in a total of 5 days. Avigan is available in 200, 400, and 800 mg formulations. One package of 100 tablets is enough for two infected people. Although there is not much room for it. The generic name of Avigan is Favipiravir.

If you have been infected before you can import it yourself, please ask your friends and acquaintances around you as soon as possible, "Hey, do you have Avigan or Ivermectin?" There will probably be someone who is stockpiling it somewhere unexpectedly. Borrow a small amount and protect your life from bird flu first. Paying for medicine is a violation of the Pharmaceutical and Medical Device Act. Borrow and use the medicine, obtain it yourself, and return it later. After that, use the amount you have obtained yourself as a preventive dose to prepare for infection. By the way, as the bird flu panic progresses. I think there will be a scramble for Avigan and Ivermectin. Please be careful about storing and managing them.

Finally, if you want to know the whole story of this bioterrorism, please read my book "The mRNA Vaccine Massacre Survival Manual" (self-published). You can purchase it on Amazon.

Afterword

If you have read this booklet once, when "they" actually start the bird flu terrorism, you will immediately react, "Oh, it's that one! They're really going to do it. This is going to be a disaster!" And you will see what is written in this booklet unfold before your eyes.

The more people who share the information in this booklet, the more the DS underworld will be cornered. If the predictions in this book come true, readers will not remain silent. Readers will bring in new readers. People who know the truth will never forgive the perpetrators of the terrorist attacks.

The purpose of publishing this book is to raise public opinion. Please introduce this book to those around you. Whisper in their ears, "It seems that everyone will die from the bird flu terrorism." Your friend who dismissed it by saying, "No way, that can't happen," will remember your whispering first when the bird flu terrorism actually occurs. They will be shocked to hear, "It was true." They will desperately devour information about the bird flu.

The masses must wake up to the truth. That is the key to the survival and rebirth of humanity.

After the bird flu hell has passed, we who survive will rise up to rebuild society. Let's do our best until that day comes. A world where we can live freely without the control of DS is waiting for us.

For the time being, we will publish it electronically, but we are also considering publishing it in paper form. Please look forward to it. It is the bible of survival.
